

GLOBAL COLLECTION 2026

Pre-finished Interior Doors

QianMu Doors

Carbon crystal, veneer and lacquer door lines from a family-run door factory in Lankao, Henan. Factory-direct supply for distributors, contractors and project buyers across Asia.

QIANMU DOORS · LANKAO · HENAN · CHINA

Built on one workshop, one standard

QianMu Doors is a family-run door factory in Lankao, Henan - a regional cluster for wood products and furniture manufacturing. Pre-finished interior doors are our core line, led by carbon crystal surface panels, with full production capability across veneer and lacquer finishes.

Manufacturing capability

From core cutting and pressing to surface finishing and hardware routing, every process runs on written specifications, fixed tolerances and per-station inspection points - whatever the style you bring us.

Factory-direct

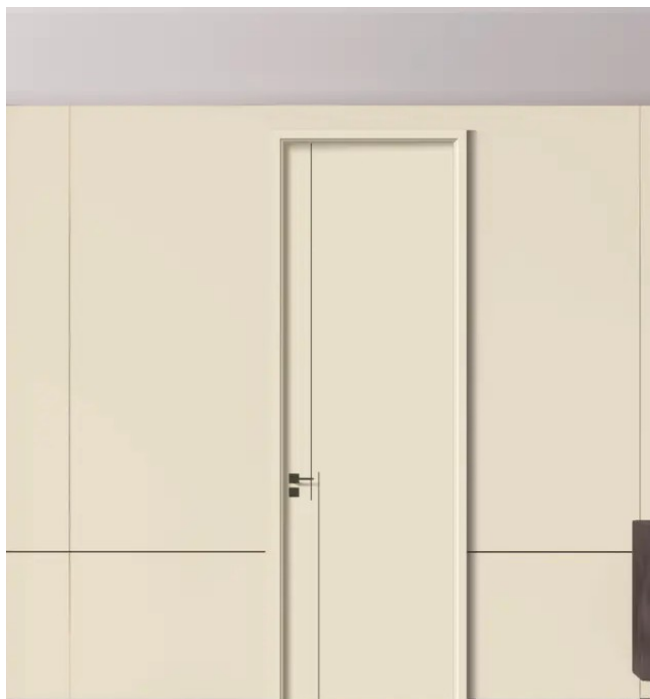

One workshop, one contact. No trading-company layer between your order and production.

Logistics position

2-3h to Zhengzhou logistics hub; rail and sea export routes reach the Gulf, Southeast Asia, Russia and Central Asia.

Order transparency

Specification sheet, production photos and pre-shipment inspection photos are shared for every order.

Three collections, one factory standard

Carbon Crystal Series

Lead line. Pre-finished doors with carbon crystal surface panels - stable, wear-resistant, consistent color batches. Widest style and finish range.

Heritage Veneer Series

Plant-veneer surfaces with warm tone palettes and classical detailing for hotel, villa and premium residential projects.

Lacquer Series

Smooth lacquer-finish doors in white and mineral tones. Bring your drawings and color standards - we build to them under the same specification and inspection system.

Model codes in this catalog are QianMu order references. Dimensions follow the standard range on each series page - custom heights available on project request.

Full price list available on request - quotations include freight (FOB/CIF).

COLLECTION 01

Carbon Crystal Series

Our factory's lead line. Carbon crystal surface panels over engineered cores - a hard, matte, skin-touch surface that keeps its color, resists scratching and wipes clean.

型号:S-8040

颜色:奶茶粉

Minimal studio line

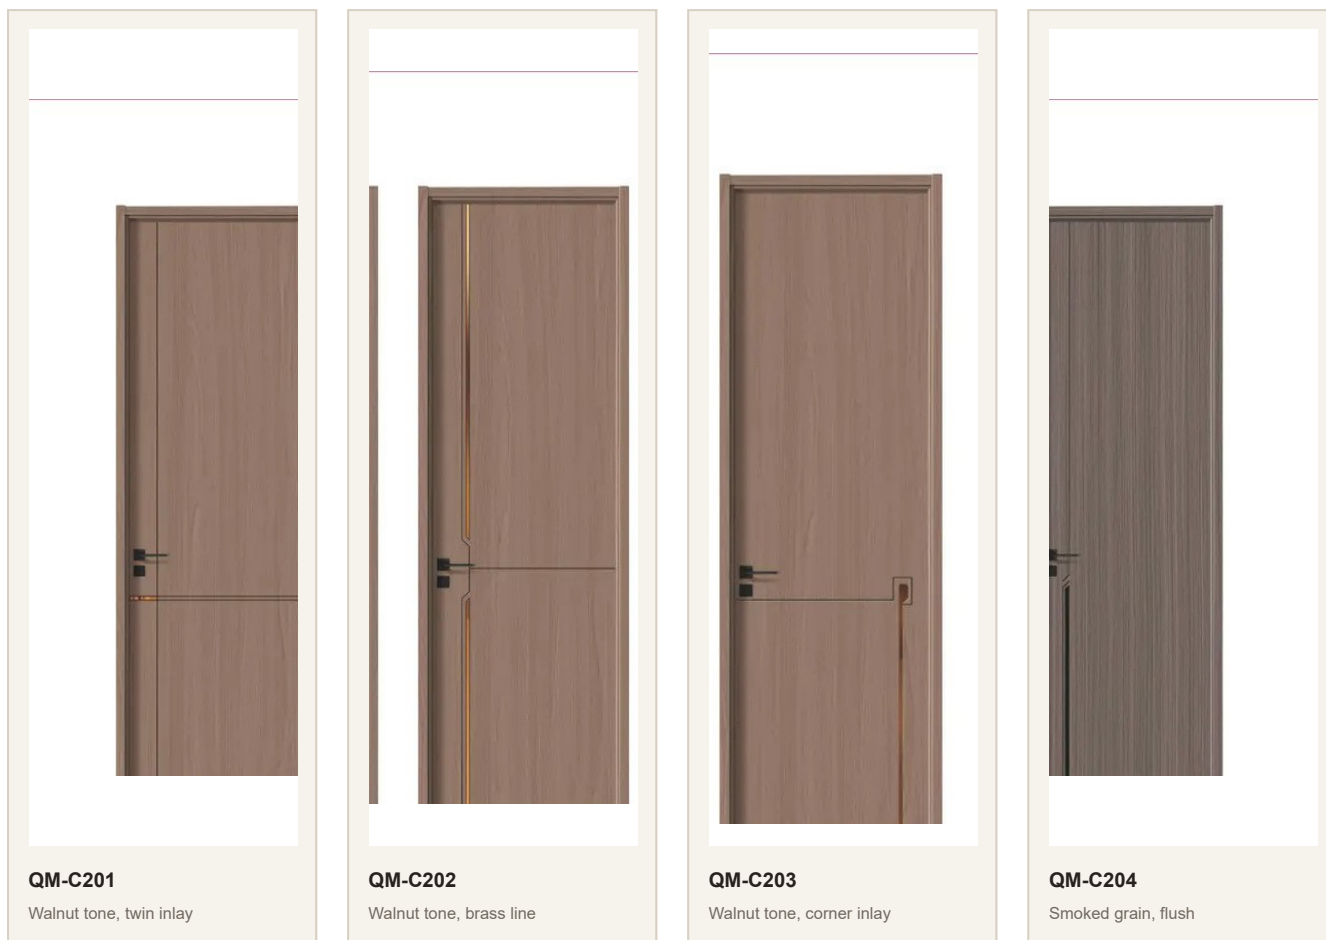

REFERENCE	STYLE	SURFACE	STANDARD SIZES (MM)
QM-C101 / C102 / C103	Flush minimal, inlay line variants	Carbon crystal panel, matte	2050 x 860 / 2150 x 960 - custom heights available

Engineered core construction with moisture-resistant treatment; frame, architrave and hardware supplied as a coordinated set.

Full price list available on request - quotations include freight (FOB/CIF).

Signature panels

All four panels share the same core build and hardware routing - mix styles within one project order without tooling changes.

Full price list available on request - quotations include freight (FOB/CIF).

Tone pairings

QM-C105 - Cream pair

Soft cream panels with slim recessed pulls; bedroom and study use.

QM-C106 - Retro dark pair

Deep umber tone with vertical grain; lounge and dining spaces.

QM-C107 - Oak duo

Light oak tones for compact apartments and hospitality floors.

QM-C108 - Taupe flush

Warm taupe flush panel; pairs with wall panel systems.

In the room

Full price list available on request - quotations include freight (FOB/CIF).

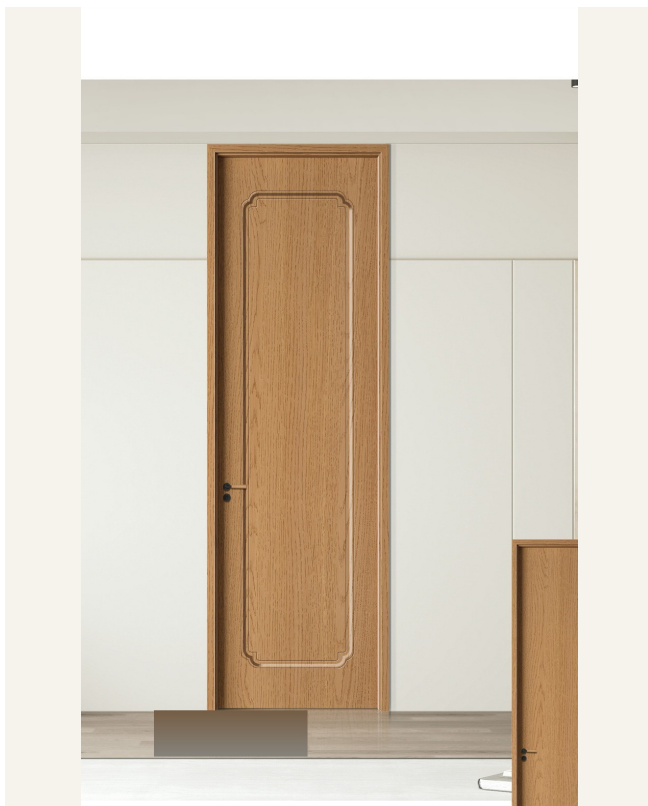

COLLECTION 02

Heritage Veneer Series

Plant-veneer surfaces, classical proportions and warm palettes - composed for hotels, villas and residences that ask for a quieter, heavier sense of craft.

Veneer craft

QM-H301 - Oak arch panel

Veneer surface with routed arch profile and brass hardware.

QM-H302 - Walnut arch

Walnut veneer with fluted wall coordination.

REFERENCE	SURFACE	DETAILING	STANDARD SIZES (MM)
QM-H301 / H302	Plant veneer, clear matte coat	Routed profiles, arch and line variants	2050 x 860 / 2150 x 960 - custom heights available

Full price list available on request - quotations include freight (FOB/CIF).

Classic Pre-finished Series

Everyday project doors: flush and lined panels in cream and soft neutral tones, built on the same engineered core and delivered as door-frame-architrave sets. The volume line for apartment and wardrobe-matched interiors.

QM-P401 - Cream flush set

Flush cream panel with matched wardrobe fronts.

QM-P402 - Lined panel

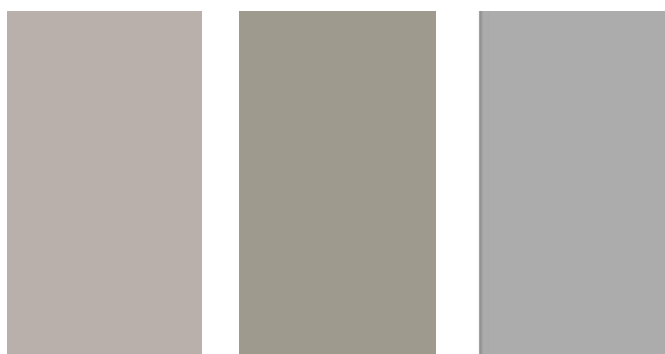

Soft-line routing on pale neutral base.

Full price list available on request - quotations include freight (FOB/CIF).

CAPABILITY

Lacquer Series

Smooth lacquer-finish doors in white and mineral tones. Send your drawings, color standards or a reference photo - we produce to them on dedicated lacquer lines, under the same specification sheet, inspection points and packing standard as every QianMu order.

Mineral Grey

Sage

Pearl

Extended line - specifications on request.

BY CAREFULLY EXPLORING THE TEXTURE AND TEXTURE OF THE MATERIAL ONE CAN FIND THE HIDDEN ELEGANCE AND DELICACY. LUXURY IN FORM ELEGANCE IN THE INTERIOR.

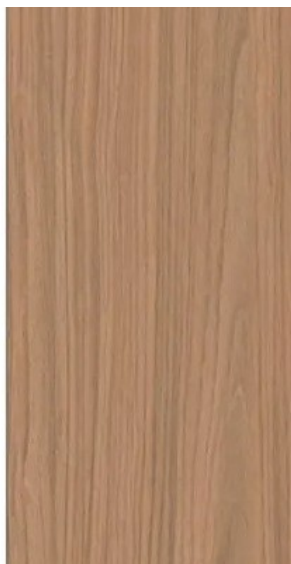

QM-L501 - White lined trio

Full price list available on request - quotations include freight (FOB/CIF).

FINISHES

Finish palette

A working selection from the current finish library. Full physical sample sets ship with the first sampling round.

Italian Walnut

Rosewood

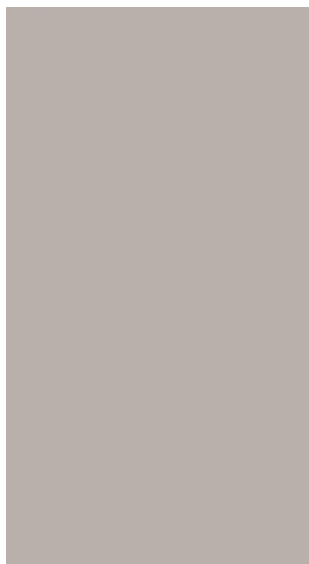

Smoked Walnut

Walnut Ribbon

Light Oak

Mineral Grey

Sage

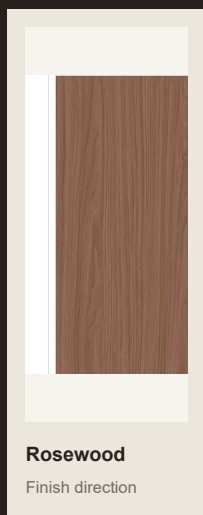

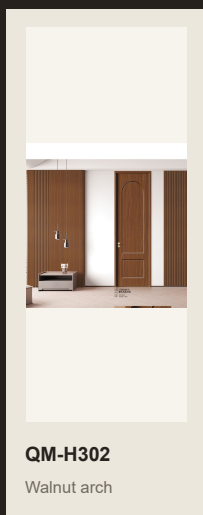

Pearl

Tone and grain direction are confirmed against physical samples before production - screen colors are indicative only.

Gulf Region

SAUDI ARABIA & UAE

Villa compounds, apartment towers and hotel programs favor walnut and deep warm tones, taller leaf heights and coordinated double-leaf entries.

Dry-heat stability

Engineered core construction with moisture-resistant treatment keeps leaf geometry stable through hot, dry summers and air-conditioned interiors.

Project pace

Production discipline supports phased deliveries with room-coded labels for tower and compound handovers.

Route

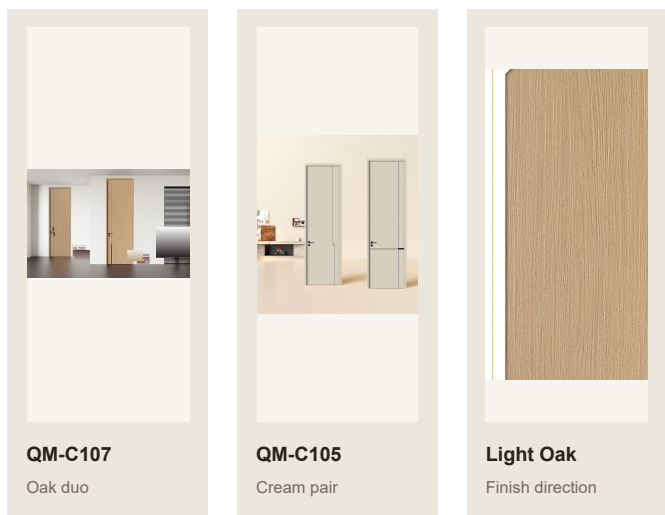

Zhengzhou hub to Jeddah, Dammam and Jebel Ali by sea; documentation prepared per destination requirements.

Full price list available on request - quotations include freight (FOB/CIF).

Southeast Asia

INDONESIA & VIETNAM

Humid tropical climates and fast-moving residential projects call for moisture-planned cores, light oak and cream palettes, and dependable lead times.

Humidity planning

Engineered core construction with moisture-resistant treatment, sealed edges and protected packing for humid transit and site storage.

Palette fit

Light oak, cream and taupe tones follow current apartment and townhouse interiors.

Route

Zhengzhou hub to Jakarta, Surabaya, Ho Chi Minh City and Haiphong by sea with weekly sailings.

Full price list available on request - quotations include freight (FOB/CIF).

Russia & Central Asia

RUSSIA & KAZAKHSTAN

Cold, dry winters and rail-first logistics. Stable engineered builds and direct rail departures make these markets a natural fit for factory-direct supply.

Cold-climate build

Stable engineered cores and finish systems tolerant of low humidity and strong heating seasons.

Rail advantage

2-3h to Zhengzhou logistics hub with direct China-Europe rail departures - shorter transit than sea for Moscow and Almaty.

Palette fit

White and mineral lacquer tones alongside warm walnut - matching prevailing apartment renovation styles.

Full price list available on request - quotations include freight (FOB/CIF).

Checked at three gates

01 - Incoming materials

Core boards, surface panels and hardware are checked against the order specification before entering the line.

02 - In process

Dimensions, squareness, surface and edge quality sampled at each station; deviations stop the batch, not the shipment.

03 - Pre-shipment

Full-order visual and dimensional inspection with photo record shared before packing; third-party inspection arranged on request.

Order specification sheet

- Surface, core and edge treatment
- Dimensions and tolerances
- Frame, architrave and hardware set
- Labels, cartons and inspection points

Destination compliance

- Compliance documentation prepared per destination market on project request
- Import and clearance requirements confirmed with the buyer before production
- Sample sets available for buyer-side evaluation

From Lankao to your site

Export packing sequence

1. Surface and edge protection
2. Corner guards on all leaves
3. Five-layer export cartons
4. Optional rack or reinforced packing
5. Project labels and room coding

Routes

- Factory to Zhengzhou hub: 2-3h by road
- Sea: Qingdao / Ningbo to Gulf and Southeast Asian ports
- Rail: China-Europe departures toward Russia and Central Asia
- Loading plans and container fill estimates, confirmed at order confirmation

Rail and sea export routes are quoted per shipment; transit photo documentation is provided at loading.

Full price list available on request - quotations include freight (FOB/CIF).

Send a drawing, a photo or a quantity - we reply with a specification and a price.

WHAT TO SEND

Door styles or reference photos, quantities, sizes, destination port and project timeline. We return a specification sheet and quotation.

SAMPLING

Finish sample sets and full door samples are available before bulk orders; sampling terms are confirmed with the first inquiry.
